

The woman on the right never used Ayer's Hair Vigor. She neglected her hair, and now herself suffers from neglect. On the contrary, the woman on the left has always used Ayer's Hair Vigor, and owes to it much of her youthful appearance and attractiveness.

Ayer's Hair Vigor
produces beautiful hair. Long, rich, heavy hair. Soft and silky hair, free from dandruff.

Prepared by Dr. J. C. Ayer & Co., Lowell, Mass., U. S. A.

CARPETBAG RESOLUTION

(Continued from Page One.)

he learned no definite steps have yet been taken at the department toward filling either of those offices, although it would be no surprise if the nomination of a new District Attorney were sent to the Senate almost any day.

The Postal Concession.

The Postoffice Department has announced the conclusion of a postal treaty with Great Britain whereby the two-cent letter rate shall apply to Hawaii and that country. This is the outcome of a protest made several months ago by the Delegate and Mr. McCallan, Mr. Meyer, then Postmaster-General, promptly took up negotiations for such a treaty, and these negotiations have been carried forward not only expeditiously but successfully, thanks to Mr. Meyer's friendly interest. As was explained in these letters at the time, Great Britain declined to include Hawaii in the general treaty because the United States would not include certain British colonies, like Jamaica, in its treaty.

Economy at Hand.

It is probably very fortunate for Hawaii that Congress has voted generous appropriations for various territorial projects in the last three or four years. The era of economy in government expenditures appears to be at hand and during the next two or three years, till the revenues of the government are abundant, it is probable that the pruning knife will be wielded on all appropriation bills. The Senate now has a budget committee of leading Senators, who will try to keep the total of appropriations down to the revenues. The cabinet is also to have a budget committee of its own members for the purpose of scaling the estimates. Under such a regime the territories, which have no votes, will naturally suffer most. It remains to be seen, however, whether the army and navy program as it applies to Hawaii will be curtailed or whether the development of the great naval station at Pearl Harbor will be checked. President Taft has declared that there must be no skimping with the army and navy, and if his word is respected Congress will probably continue to vote generously for navy and army.

C. M. COOKE STARTS CHURCH BUILDING FUND

The official board of the Methodist church met in special session yesterday in order to acknowledge the gift of \$5000 from Hon. Charles M. Cooke towards the erection of a new church building, which will be undertaken just as soon as the funds are available. The present building has grown too old and very inadequate to the needs of the congregation. It is decided to rebuild in a different location, possibly somewhere in the vicinity of Thomas Square, at a cost of \$25,000. Revs. John T. Jones, the pastor, and Superintendent John W. Wadman were appointed a committee to solicit funds for the same just as soon as possible.

BORN.

SMITH—In this city, April 10, 1909, at the Maternity Home, to the wife of E. J. Smith, of Wailua, a daughter.

MARINE REPORT.

Gilbert W. Kriesz and Erick Welen, who are tramping their way around the world, called at the Advertiser office last evening.

Mrs. William Savidge, wife of the clerk of the Senate, and three children, are booked to leave for the Coast on the Alameda.

FIFTY BALES OF TOBACCO

NOW READY FOR MARKET

Fifty bales of tobacco, averaging 150 pounds to the bale, has been produced and prepared for shipment by Jared G. Smith on his Kona tobacco plantation. Some of the product has already been marketed and the remainder will no doubt find a ready market, as the samples sent out last February were pronounced of the very best quality.

Mr. Smith is in Honolulu at present and will return to Kona shortly. The present crop has been gratifying in all respects, and on his return he will commence adding to the acreage. Possibly fifty acres more will be planted in tobacco, and the plantation will be gradually enlarged, as the market is certain and the product will bring good prices.

A BROKEN-D
